AROMA

Reservoir for 1 fragrance, dispensing during treatment with the push of a button.

ZONES9

9 independent zones, 5 factory programs, 3 user programs.

Applications of Aquanea in facilities:

Hydrotherapy departments

Aquanea is a valuable asset in specialized hydrotherapy departments, providing targeted treatments for patients with conditions such as musculoskeletal disorders. The adjustable zones allow clinicians to focus on specific areas that need attention, offering precise hydrotherapy interventions to relieve pain, promote healing, and improve mobility. This specialized equipment enhances the effectiveness of treatments in these areas.

Rehabilitation centers

Aquanea is an excellent solution for rehabilitation centers, offering specialized hydrotherapy treatments. Its design allows for targeted hydromassage of specific areas of the body, aiding in patient recovery and rehabilitation. As an essential tool in the rehabilitation process, the therapeutic properties of hydromassage help improve circulation, reduce pain, and increase range of motion.

Technical data:

Capacity:	160-240 l
Volume up to overflow:	275 l
Filling* (up to overflow)/emptying:	4 min
Current consumption:	10 A
Power supply:	400 V ~3 N 50 Hz
Dimensions (L x W x H):	243 cm x 115 cm x 85 cm
Weight:	220 kg
Protection class:	Class I

* depends on water pressure in connections (recommended flow ~70l/min)
