Product description:

High Easy Sling – Full body sling with head support

The **High Easy Sling** is a versatile, comfortable patient sling that provides full body support—including the head—and stable support during transfers, bathing, or daily care. It is ideal for people with limited mobility who require safe and comfortable support during transport or lifting.

The product is ideal for long-term care, rehabilitation, and home use.

Why choose the High Easy Sling?

- **maximum safety and comfort** thanks to padded sections and backrest,

- **universal clip fasteners** (compatible with most lifts),
- **functional solutions** (hygienic opening, removable stiffeners) for easy daily care,
- **high durability** and high-temperature washability — ideal for medical facilities, nursing homes, and home use.

Full suspension with head support

Ensures proper body positioning, which increases patient comfort and safety.

Split, padded leg sections

Features soft, padded leg sections for comfort and even weight distribution.

Removable head stiffeners

Allow for precise adjustment of the support to the individual needs of the patient.

Small hygiene opening

Facilitates care without having to completely remove the sling.

Purpose:

- transporting patients from bed to wheelchair, toilet, or bathroom;
- bathing and hygiene care using transport and bathing lifts;
- transporting people with limited mobility who require full support;
- long-term care, rehabilitation, and home care.
