Product description:

Dress Sling Padded Roll – a comfortable sling for safe patient transport

Dress Sling Padded Roll is an ergonomic and comfortable patient transport sling, designed for safety, stability and user comfort. Thanks to a well-thought-out design with additional support elements and soft filling, the sling allows for comfortable and safe transport of people with reduced mobility.

Purpose:

- transport of patients with reduced mobility,
- lifting and moving between bed, wheelchair, chair or toilet,
- home care, nursing homes, hospitals, rehabilitation facilities,

- situations where comfort, stability and user safety are required.

Why choose this sling?

- **A combination of comfort and safety** — soft filling, stable support, adjustment and comfort,
- **Practical solutions for the caregiver** — easy to put on, color-coded markings, toilet access, quick washing,
- **High versatility and durability** — the sling works well in various conditions: home, hospital, care,
- **Improving the quality of daily care** — comfortable transport with care for the dignity and comfort of the patient.

Padded sling

The soft filling ensures comfort even during prolonged stays.

Includes an inguinal roller

Increases comfort and stability in the armpit/groin area during lifting.

Built-in hip support

Stabilizes the torso and increases safety during transport (clunk-click fastening).

Streamlined pressure distribution

The sling provides even body support and high stability.

Access to toilet and care

The design allows easy access to the toilet or care without having to completely remove the sling.

Easy maintenance

Can be washed at 85°C and dried at low temperatures (up to 50°C).
