Product description:

Aquameden - Underwater massage bathtub

Aquameden is a hydrotherapy bathtub designed for underwater massage. It facilitates rehabilitation and pain relief through massage performed with water nozzles and effective underwater therapy, thanks to a water whip equipped with smooth water pressure regulation.

The bathtub features a high-quality acrylic basin, reinforced with polyester laminate for enhanced durability, and is equipped with a control panel. The four-sided housing protects the device from damage while providing an aesthetic and modern appearance. The Aquameden bathtub is supported by four adjustable legs, finished with rubber protective caps.

Features:

Basin available in two colours: white or calypso green

Basin made of high-quality acrylic glass

Water whip for underwater massage

Replaceable nozzle tips for the jet hose (optional)

Pressure gauge (up to 4,5 ba)

Optional hydromassage: eight side direction jet nozzles + three direction jet nozzles for the back

Hydromassage intensity adjustment via air supply to the nozzles with the aeration knob

"Dry-run" pump protection system

Electronic control panel

Water level sensor

Water system made with copper and PVC pipes (except connectors and valves)

Automatic water installation disinfection system

Display indicates the remaining time for massage completion, alternating with water temperature

Railings and foot supports to help maintain proper body positioning

Additional options:

You can choose from a range of additional options to make your bathtub even more special!

CHROMO

- Bathing with lighting effects: 12 individual light sources.
- Bathing with lighting effects: 24 individual light sources.

- Bathing with lighting effects: 36 individual light sources.

AUDIO

The device is equipped with high-quality speakers. To play music, simply connect an external source, such as a mobile phone.
