

T-ALTER - Alternating shower (Scotch douche)

Product short description:

Scottish shower T-ALTER series is a device with powerful settings. It is equipped with thermostatic mixer valve, which allows precise regulation of water temperature. Dedicated lever allows to quickly change the temperature of water stream (cold-heat, hot-cold). On the desktop, there are 3 hoses which allow to apply a stream of with different level of pressure (rain / fall / whiplash). If water installation do not meet the technical requirements and does not allow for the proper operation of the device, we suggest to order optional pump to equalize pressure of water in the system.
