Product description:

Vertimo Classic - Tilting table

Vertimo Classic is a stable tilting table with electric angle adjustment. Its one-section design and fixed height of 53 cm facilitate patient transfer from a wheelchair or bed.

Features:

- 1-section table.
- Electric actuator for tilting adjustment.
- Manual remote control for the adjustment of tilting angle with access authorization - with a special key placed in the remote control.
- Brackets for the attachment of fastening belts (standard accessories).
- Two-layer padding with upholstery in many colours.
- Powder coated, very stable steel frame.
- 4 large separately lockable castors (rolling and rotation lock).
- Emmergency power supply battery.
